### CARL SCHUEZ SPEAKS.

He Is for Cleveland Again and Tariff Reform-Frank Statement of His Views-Review

Of the Administration -Sharp Ortyfelem of the Bapub tean Attitude-Teriff Beform Is Sure to Come.

-Carl Schurz, who is now at Kiel, Garmany, a nds to the New York Evening Post copies of a letter received by him from a prominent citiz n of Wisconsin soon after the Chicago convention, and his reply under date of September 15 His correspondent, a Republican was opposed the election of Mr. Blaine in 1884, but is now, as he declares, "squarely for Harrison and Morton," urged him to return to the country and take the field for the R publican candidates. Mr Schutz s repline as follows:

FORSTECK, Kell, Sept. 15, 1898. My DEAR SIR-Y or letter from Washing on, asking me to "recross the ocean and take the field" for Mr. Harrison reached ms some time ago. Being de-tained have longer taxa I anticipated by cumstances with which our previden tial election has nothing to do, I can only comminies to you in writing the views which wald governmy course is the pending companya could I return home in season. I do so after having calculy con-Bidered the subject for away from the cx citement of the struggle.
In condemning the concessions to the

spoils element in the Democratic party offired for them. I do not think, for in the stand for the litical annocades s, to rally around a General Girfleid's presidency, which under the control of seifles, grasping inthorough-going reformer. His party ended with his tragic death. The Amer teresis, in which the spirit of monopoly is would then have been morally as well as numerically strong r than it is to-day enough of that. But if the Republican suit: but even if such expectations had opment and fruition of that sort of gov- distrustful of the cause they are to supnot been entirely fulfilled, certain it is enument my vote shall certainly not con-

the actual policy of the party. I' war, doubt, owing to the pressure of Dem. lot of the America. people. fully to R publican politicians.

ferable to Mr. Blaine. But neither his sitten of the Republican party?

field, the greater will be the variety and professions nor his antecedents stamp. Bu more. It was the custom of the quantity of American manufactures sold mands of the influential politicians of his platform that the government should be promising will be the development of our party. He would, on the contrary, to the administered with strict economy. The industries. There are many foreign asked his demands to be met under a pre- and recommends the spending of the pub- is. While theoretical economists abroad, vious Republican administration. The lie man-y for a variety of subjects. What of course, applied every movement in cause of civil service reform would, there this means is easily understood. There the economic policy of the United States fore, have to hope rather less from Mr. is along surplus in the treasury. That which they consider as emanating from Harrison than from Mr. Civyeland. Harrison than from Mr. Caveland.

Mr. Blaine, not Mr. Harrison, whom w "Year leader of the Ramab town purity,"

tential power to be wielded by another. we begin to hear offered for them I do not think, for in | mon ground in 1884, both conspicually, which constantly raises a much large

account of his failings as a civil service that the tariff, originally intended wer! reformer, oppose his re-election I am very far from questioning the sincerety of their motives when they argue that the frequency should not be permitted to pass with impusity. But I offer that is rate. One Republican mixture when the passion really is, whether that the process of the danger is not in the Milis bills wages in Germany must have been declared in the principles and offensive features, and the principles are deposited and reduced to meet the insurance in the financial needs of the flower of the financial needs of the flower of the flower of the financial needs of the flower of the flower of the financial needs of the flower o Ashing Mr Cleveland they would not at the same time succeed in punishing the country still more.

The main consideration is after all, how the public interest in the largest sense can be been served. Concerning at some time and continued in the same time and continued in the same time and continued in the people, the duty on waith adds to the continued in the people, the duty on waith adds to the continued in the people, the duty on waith adds to the continued in the people, the duty on waith adds to the continued in the people, the duty on waith adds to the continued in the people, the duty on waith adds to the continued in the people, the duty on waith adds to the continued in the people, the duty on waith adds to the continued in the people, the duty on waith adds to the continued in the people, the duty on waith adds to the continued in the people, the duty on waith adds to the continued in the people, the duty on waith adds to the continued in the people, the duty on waith adds to the continued in the people, the duty on waith adds to the continued in the people, the duty on waith adds to the continued in the people, the duty on waith adds to the continued in the people, the duty on waith adds to the continued in the people, the duty on waith adds to the continued in the people, the duty on waith adds to the continued in the people, the duty on waith adds to the continued in the people, the duty on waith adds to the continued in the people, the duty on waith adds to the continued in the people, the duty on waith adds to the continued in the continued in the current of the people, the duty on waith adds to the continued in the current of the people, the duty on waith adds to the continued in the current of the people, the duty on waith adds to the current of the people, the duty on waith adds to the current of the people, the duty on waith adds to the current of the people of the current of th soministrative reform, we have seen spough of political life to know that, as to their devotion to the spoils system, there is an different projection and con its open war. According to them, the spoils system, there is an different projection of the projection of spails system, there is to all protection of tariff rales of 20 to our industries. No more self-evidently politicians in the Republican and those 25 per cent as demanded by the public faciations a service has ever been ading the Democratic party. But will interest This was the teaching we heard varied. It will make Henry Cay, the

distress and misery would have been the tective tariffs. That our tariff has not

no doubt, been owing to the pressure of manufa turing ledustries were in the products of American manufacturers have Republican partisans that President Grant in his time threw overboard the waclesystem, examination, rules and all. And it is certain that the ifforts President Grant it is certain that the ifforts President Grant facturing industries grew older and it is certain that the ifforts President Grant facturing industries grew older and stronger. Yet the more stores industries of the world.

It is one of the curiosities of this campaigner in the way of cease to be infants, the older and stronger reform found up counterance among Rereform found up counterance amon reform found u) countenance among R:publican politiclass. It is quality certain that a R publican victory now would be followed by a "clean sweep" with all that the term implies, involving not only all Democratic officeholders, good and bad, out-ide of the classificial service, but the Republicans left in effice by President Cleveland, too, as R multiclass who consisted to remain in place under a D mocratic a mini-irration are especially lister fully to R publicans made as personal manufactured and the production of which the incensity point of the protective system," it will wis being attainable, we know that we already self-actual manufactured articles which years of the most rational charter and wishy—taxes of the most rational charter and superior efficiency of American work—sented to remain in place under a D mocratic a mini-irration are especially lister fully to R publicans.

The transportation of the protection of which the incensity point of the protective system," it will wis being attainable, we know that we already self-actual manufactured articles with part of the protective system, it will wis being attainable, we know that we already self-actual manufactured articles with part of the protective system, it will wis being attainable, we know that we already self-actual manufactured and was part of the meaning attainable and or even relied. And the form that "rather than surrender any part of the protective system," it will wis being attainable, we know that we already self-actual manufactures in the foreign was desirable to be striven for. As to its being attainable, we know that we already self-actual manufactures in the foreign was with a strainable and write as if its audition of American manufactures are well as a was well as a strainable and write as if its audition of was being attainable, we show that we already self-actual manufactures in the foreign was with a strainable and write as if its audition of American manufactures in the foreign was was constituted or even to be the manufacture Is it reasonable to expect that Mr. Harrison, if elected, would oppose such a
swell as a physical respect. Would oppose such a
swell as a physical respect. Would operations of the manufacican sweep" with greater courses as well as a physical respect. Would operations of the manufacand firmness than was shown by Mr.
Cleveland? Mr. Harrison is in point of

Subject.

Having said this I am willing to repeat has been done in the case of copper. But that as I and probably most independents it is evident that such world wide conli-tions are extremely difficult to erganize ting the example of strictest fitelity to all Trey are possible only when the number his reform pledges expressed and fairly

ple will it ig endure such combinations enlarge the remun rative activity stood. It is therefore no mere fancy when development of the general prosperity. The situation may in some things by cose quences, univers a policy of plast and from using our daily as citizens and rational return, such as proposed to voters, if we cannot have the kiest party or the idea, candidate. We have conscipted in time. They angry reaction scientiously to make our choice among the possibilities presented to us, and thus to serve the interests of trusts, which is now being devised, will the republic as best we may upon due and the republic as peak well as the republic as peak well as the resulting and the republic as peak well as the resulting and the res

do well very calmly to consider whether I find that I cannot support Mr Harrison, the choice they have now to make, as you wish me to do; but I shall deem it its lead of being between tar fireform and my duty to vote for Mr. Cleveland if cirno taciff reform, is not really between a commutances permit me to reach home in moderate and easy change, seneficial to time for the election. tab lainstrial interests of the country,

forts at effective law making go on, to to be adopted now, and a sudden, violent ay to he manufacturers combined in and sweeping revusion, doing rough trusts: "As you will not let the people justice in obedience to an extaperated have the benefit of home competition, popular feeling, unmindful of existing interests, to come in the near future. I don from foreign competition. The tariff am in favor of prudent and temperate reduties on your articles shall therefore be form, and wish to avoid the danger of promptly done away with. You shall not abrupt, sweeping and possibly destructest the cakes and have it too." This policy ive changes. I saw, therefore, in favor will be unquestionably just, and at the of the tariff policy proposed by Mr. same time effective, in going straight to Cleveland and egainst that of the Repub-the mark. To be sure, the stiempt may be made the manufacturers, as well as the labor-

that as I and probably most independents think, President Cleveland would, by setof producers is comparatively small, and implied, have rendered the republic a thea only when production for the mark it greater service than be has done by any quires a very large capital at the start | of his official acts. But that is no reason But even then they are apt to be broken why we should overlook or underestimate into somewhere on the face of the earth the merit of the other things be actually by somebody who is strong enough and has done. During his Presidency the finds it to his interest to do so. At any country has been relieved of an impresrate, the prompt admission of foreign sion sedulously fostered by party spirit, competition, where home competition is and until within three years cincerely artificially cateff, is a remedy curer of entertained by many good citizens, that immediate effect than any other within one-ball of the people were disloyal and sight. As shown by the example of the dangerous to the Union, and that the restandard O I Trust, it may not prevent public would go to destruction if the combinations for the control of produc-tion, but it will in almost every case prevent exterion by the artificial raising gain to the morals of our political life of prices if the articles concerned are at which council be too highly appreciated.

Moregver, President Cavaland has given The protected interests which, as to the country an administration of their standing in public opinion, have so public affairs which, notwithstanding its ong relied upon the charm of captivating one, should not be blind to the fact respects, by its ability, its fidelity to the ing cile , should not be blind to the fact that the springing up of tribus has public interest, and its wholesome consuper the term of questions new face. The facts is extrained ordered its blinding olds the people "Stand and deliver."

The effects to obscure the refaired to the best to be people "Stand and deliver."

The effects to obscure the refaired to the people. And, findly, he has by his tariff message, identified almost and tariff will not succeed long. If they which bids fair to creat existing evils, and the bids fair to creat existing evils. success at No free and spirited peo to obviate destructive disurpances, to when toef using has once teen under- industrial labor and to secure a steady ocome, causing sudden and sweeping mesatisfactory to many of us, as I frankly observes which at regard to immediate admit it to be. But we are not excused occase quences, united a policy of just and from doing our duty as citizens and

not remedy the evil as thereongoly or as consideration of these possibilities, and promptly as the public interest demands exercising in this as in thereexes my all parties interested would, therefore, best judgment as an independent cit zer.

Very truly yours.
